Dissemination Seminar regarding PDHS survey, Chandka Medical College, Larkana

On 20th June 2009 Pakistan National Forum on Women's Health in collaboration with TACMIL Health Project, organized a seminar regarding dissemination of information from PDHS survey at Chandka Medical College, Larkana.

More than 300 participants including medical students, midwives, nurses, and doctors from different faculties of this college attend the seminar.

Different faculty members gave presentations on the key findings of PDHS. They informed the participants about condition of maternal and child health, fertility rate and child and infant mortality rate. All the topics were presented in detail, statistics and reasons behind the findings were also shared with the audience.

In the end faculty members encouraged all their medical team including students, doctors, nurses and midwives to work together to achieve Millennium Development Goals (MDGs) 4 and 5 i-e "Reduce Child Mortality" and "Improve Maternal Health".

Participants took great interest in all the presentations they asked several questions during and after the presentation. Media personnel including electronic and print media attended this seminar and wide coverage was given to the event in all leading local newspapers.
